My son is studying in 10th. Yesterday, I got a sms from the school, as such today i visited this website. Congratulations to entire staff of School, who has guided the software persons to make this kind of software. This software is very user friendly and has almost all the information, which any parents needs for their child on regular basis. We were worried about the fact, how we are going to interact with the school on regular basis, as meeting the teacher /admin /Principal is not easy, but this site provides the via media to do this as well Congratulations once again ! As of now, site looks to be perfect.
It is really a very good software. Thanks to the School as well as to the software company.
